```c
#include <stdio.h>
main() {
    int n,sum=0,r,t;
    scanf("%d",&n);
    t=n;
    while (n!=0) {
        r=n%10;
        sum=sum*10+r;
        n=n/10;
    }
    if(sum==t)
        printf("palindrome");
    else
        printf("not a palindrome");
}
```
